

The MASTORs Club Application (Math, Science, Technology of Robots)

What is the MASTOR club?

It is a club where we will build and program LEGO™ Mindstorms robots. The sponsors this year are Mrs. Frantom and Mrs. Cheifetz. Spring session runs for 10 weeks.

When does it meet?

We will meet Wednesdays 2:55-4:15 pm from January 11 - March 22.

Who is it for?

Anyone in 6th grade! We're looking for up to 12 boys and 12 girls of all ability levels. You don't have to be a math genius or know **anything** about building robots. This is a great place to strengthen your problem-solving skills, learn something new, and have some fun. *Pick your own partner!*

How do I join?

Fill out this permission slip and return to Ms. Frantom or Mrs. Cheifetz **no later than Monday, January 9.**

* NOTE: In the event that we receive more than 24 applications, students will be chosen at random to achieve equal numbers of boys and girls. Preference will be given to students who applied but didn't get in for the fall session. You will be notified by Tuesday, January 10.
