Subject: Re: Summary of Debate Club Meeting February 15, 2017

Hello,

Here is the meeting summary:

"At today's meeting we discussed a bill that would give parents the option to implant GPS tracking chips into their children. We briefly reviewed speech structure before moving on working on introductions. We spent the last half of the meeting giving more sample speeches."

The end of season tournament remains scheduled for May 17. Students will participate in a debate tournament that is intended to mirror what they will experience in high school. Members of the Stevenson Debate Team will be acting as judges. Pizza will also be provided. I am currently discussing with Stevenson Debate Team coaches about the specifics and will provide more information later.

Best, Jeremy Yu
